Especially small and mid size companies must be highly flexible to survive in their daily business against larger companies. With the need of being active in the retail and fast food market, the flexible PC-based POS terminal RZ-X750FV4 offers a lot of additional opportunities, as it allows to install specific application software dedicated to the market segments. Apart from this, the RZ-X750FV4 can be upgraded to an overall sophisticated system. This, due to the availibility of several interfaces to connect different printers, a 26,4 cm LCD customer display, magnet card reader etc.Not only visually, but also from the daily work and efficiency standpoint the RZ-X750FV4 is perfectly designed. The terminal can be placed directly on the checkout desk or installed at the wall. Thanks to its fanless technology the RZ-X750FV4 reduces energy cost to a significant low level.
